

Concept for developing Waves of Democracy towards 2018

Objective: Within the framework of IUC to develop our core project, to focus on creating a strong European youth agenda by empowering young people to take active part in the European integration process and make their voices heard in a structured way. Europe needs to rethink in a time of crisis for the EU, when the gap between the political elite and the civil society has widened. Young people are important in this process and can and should provide a strong voice in this process.

Steps 2017/18:

- Spring 2017 – discussion/development of ideas by Waves crew to prepare for the seminar in Copenhagen, which will provide input for Waves in 2018 (6-7 people)
- Waves vision seminar June 16th to 18th – Inspirational inputs from external and internal stakeholders, best practices e.g. Sonnenberg/20 Recommendations, workshop for preparation of Waves Summer Seminar in 2018 (25 people) Waves crew + invited international students living in DK, who will take part in the development
- Consultations/follow up – research link (will elaborate)
- Summer 2018 – Seminar for 100 participants in DK
